PROFESSIONAL SUMMARY

Senior Software Engineer with 8 years of experience building scalable microservices, REST APIs, and GraphQL backends using Python, Django, FastAPI, and Node.js. Expert in React and TypeScript frontend development, AWS/Azure/GCP cloud architecture, Docker and Kubernetes containerization, CI/CD pipelines with Jenkins and GitHub Actions, and agile scrum methodologies. Strong background in system design, software architecture, unit testing, test automation, and code review. Experienced with Redis, Kafka, Elasticsearch, Terraform, Ansible, machine learning, and continuous integration and continuous deployment.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, Go, Bash

Frontend: React, Angular, Vue, HTML5, CSS3, Tailwind

Backend: Django, FastAPI, Flask, Node.js, REST API, GraphQL, Spring Boot

Databases: PostgreSQL, MySQL, MongoDB, Redis, Kafka, Elasticsearch

Cloud/DevOps: AWS, Azure, GCP, Docker, Kubernetes, Jenkins, GitHub Actions, GitLab, CI/CD, Terraform, Ansible

Engineering: System Design, Microservices Architecture, API Design, Software Architecture, Object Oriented Programming

Quality: Unit Testing, Test Automation, Code Review, Continuous Integration, Continuous Deployment

Tools: Git, GitHub, GitLab, Jira, Agile, Scrum, Linux, Data Structures, Algorithms

Data/ML: Machine Learning, TensorFlow, PyTorch, scikit-learn, pandas, numpy, deep learning

WORK EXPERIENCE

Senior Software Engineer

TechNova Solutions, Lagos | 2020 – Present | 8 years total experience

- Architected microservices system design on AWS using Python FastAPI, Docker, Kubernetes handling 2M+ daily requests with 99.9% uptime
- Led React TypeScript Angular frontend and REST API GraphQL backend development for SaaS platform serving 50,000+ enterprise users
- Built CI/CD pipelines with Jenkins and GitHub Actions for continuous integration and continuous deployment — reduced release time by 70%
- Integrated Redis caching, Kafka event streaming, and Elasticsearch search improving system performance by 85%
- Managed PostgreSQL, MySQL, MongoDB databases on AWS RDS; implemented Terraform and Ansible for infrastructure as code
- Applied machine learning with TensorFlow, scikit-learn, pandas, numpy for predictive analytics features
- Achieved 95% unit testing and test automation coverage using pytest; led code review process for team of 12 engineers
- Designed software architecture and system design patterns for object oriented distributed systems

Software Engineer

InnovateTech, Abuja | 2017 – 2020

- Built Python Django REST API and GraphQL backend serving 500K+ users with PostgreSQL and MongoDB databases
- Developed React TypeScript frontend; containerised with Docker and deployed on Kubernetes on Azure and GCP
- Implemented GitHub Actions GitLab CI/CD continuous integration deployment pipelines across 6 microservices
- Wrote unit tests and test automation with pytest (92% coverage); conducted code review; practised agile scrum with Jira
- Used Linux bash scripting for automation; maintained Git GitHub GitLab version control workflows

Junior Software Engineer

CodeLabs Nigeria, Lagos | 2016 – 2017

- Built REST APIs with Python Flask and FastAPI; worked with MySQL and PostgreSQL databases
 - Used Git and GitHub for version control in agile scrum team; learned system design and software architecture principles
 - Wrote unit tests; used Linux and bash for development; assisted with Docker containerization
-

EDUCATION

B.Sc. Computer Science — University of Lagos, 2016 | First Class Honours

CERTIFICATIONS

- AWS Certified Solutions Architect – Professional
- Certified Kubernetes Administrator (CKA)
- Google Cloud Professional Cloud Engineer
- Python Institute PCEP & PCAP
